

2018 Tree Trim Maintenance Program

Port Huron Township

- Two-thirds of the time DTE Energy customers are without power is due to trees.
- Tree trimming is an industry-wide solution to prevent outages.
- DTE Energy follows industry best practice and standards for tree trimming.
- DTE Energy works collaboratively with customers

Please note: During 2018, DTE Energy is planning to trim trees within the area shaded green. Additional tree work may be necessary based on circuit performance to improve reliability. Severe weather or other circumstances may change the timing and extent of the work performed.
