V. Plan Review Required

See below for plan review requirements before completing this section. Plans and specifications must be submitted when the wiring or alteration to an Electrical system is over 400 amps and is in excess of 3,500 square feet all buildings.

What is the rating of the service or feeder in ampere? _____

What is the Building size in square feet? _____

Have plans been submitted? Yes No Not required

Plans are required for all building types and shall be prepared by or under the direct supervision of an architect or engineer licensed pursuant to Act No. 299 of the Public Acts of 1980, as amended and shall bear that architects or engineers signature and seal, except:

- When the Electrical system rating does not exceed 400 amps and the building is not over 3,500 square feet in area.
- Work completed by a governmental subdivision or state agency costing less than \$15,000.00

Plans must be Submitted before a Permit can be issued.

VI. Fee Clarifications

Item #12, Mobile Home Unit Site when installing a site revise in park, the permit application must include the application fee, service, plus the number of park sites. When setting a HUD Mobile Home in a park, a permit must include the application fee and a feeder. This shall be done by a licensed Electrical Contractor. When setting a HUD mobile home or a premanufactured home on private property, a permit must include the application fee, service and feeder.

VII. Instructions for completing Application

General: Electrical work shall not be started until the application for permits has been filed with the Port Huron Twp Building Dept. All installations shall be in conformance with the State Electrical Code. No work shall be concealed until it has been inspected. The name of the inspector and the telephone number will be provided on the permit. When ready for an inspection, call Port Huron Twp Building Dept and providing as much advance notice as possible. The Township office will need the job location and permit number.

Expiration of Permit: A permit remains valid as long as is progressing and inspections are requested and conducted. A permit shall become invalid if the authorized work is not commenced within Six months after issuance of the permit or if the authorized work is suspended or abandoned for a period of Six Months after the time of commencing the work. A permit will be cancelled when No inspections are requested and conducted within Six months of the Date of issuance or the Date of a Previous Inspection. Cancelled permits cannot be refunded or transferred.
